## Mosquito Liquid

### KNIGHT ON GUARD®

Mosquitoes can wreak havoc in your residential and commercial premises. Diseases such as dengue, malaria, chikungunya have become alarming health issues in the recent years, raising the death toll of humans. After thorough research by our team of analysts and entomologists, Master Industries has launched this unique product "Knight on Guard®" to fight against the mosquito menace.

Although there are many brands offering liquid vaporizers, Knight on Guard is built on a superior technology that exterminates the mosquitoes within 8 minutes from the time of application.

### DIRECTION OF USE

Uncap the Knight on Guard® cartridge, load the cartridge into any of the repellent machine. Plug in the system into the socket, Knight on Guard® action begins.

### MODE OF ACTION

Once the repellent machine is on, the liquid vaporizes into the air and starts acting instantly. It kills the mosquitoes within 8 minutes of its application

### ADVANTAGES

- It is highly effective in killing the mosquitoes and minimizing
- The spread of breeding, biting and reduces the probability of epidemics.
- It is economical and can be conveniently used on all repellent machines at any desired time.
